REPORT OF INDEPENDENT AUDITORS

The Board of Directors
The French-American Foundation

We have audited the accompanying balance sheet of the French-American Foundation (The "Foundation") as of June 30, 2006 and June 30, 2005, and the related statements of activities and cash flows for the years then ended. These financial statements are the responsibility of the Foundation's management. Our responsibility is to express and opinion of these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free to material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by Management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The French-American Foundation at June 30, 2006 and then changes in its net assets and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States.

The French American Foundation

Notes to Financial Statements

June 30, 2006

1. Organization and Summary of Significant Accounting Policies

The French-American Foundation (the "Foundation") is a voluntary, not-for-profit agency that qualifies as an exempt organization under Section 501 (c) (3) of the Internal Revenue Code and has been classified as a publicly supported charitable organization under Section 509 (a) (1) of the Internal Revenue Code. The Foundation qualifies for the maximum charitable contribution deduction by donors. Its primary purpose is to strengthen relations between the United States and France by fostering cooperative projects among United States and French leaders and professionals in government, education and business.

The Foundation executes certain programs in conjunction with the French-American Foundation Comite Francais, which is an independent organization in France with a mission similar to that of the Foundation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Foundation considers highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

Works of Art

The Foundation has a collection of works of art that have been contributed to the Foundation. The collection is maintained by the Foundation for public exhibition in furtherance of its mission. The works of art are recorded at cost, if purchased, or at fair value, if donated.

The French American Foundation

Fund Accounting and Net Asset Classifications

To ensure observance of limitations and restrictions placed on the use of resources available to the Foundation, the Foundation's accounts are maintained in accordance with the principles of fund accounting. Separate accounts are maintained for each fund; however, in the accompanying financial statements net assets that have similar characteristics have been combined into two net asset classes: unrestricted and temporarily restricted.

Unrestricted net assets are not restricted by donors, or the donor-imposed restrictions have expired. The Foundation's Board of Directors has designated a portion of the unrestricted net assets of the Foundation for long term investment purposes (see Note 6).

Temporarily restricted net assets contain donor-imposed restrictions that permit the Foundation to use or expend the assets as specified. The restrictions are satisfied either by the passage of time or by actions of the Foundation.

Support and Revenue

Grants and contributions are recorded as revenue when received or pledged unconditionally at fair value. Contributions received with donor stipulations that limit the use of the donated assets are reported as temporarily restricted support. When a donor restriction expires, that is when a time restriction ends or purpose restriction is fulfilled. Temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restriction.

Investments

Investments consist of United States Treasuries and mutual funds, and are reported at fair value.

Furniture and Equipment

Furniture and Equipment are recorded at cost and are depreciated on the straight-line, half-year convention basis over their estimated useful lives (five to seven years).

The French American Foundation

The costs of providing program services and supporting services have been allocated in the financial statements among functional categories based upon the ultimate purpose of the expense. Functional expenses which are not specifically attributable to program services or supporting services have been allocated by Management in accordance with various criteria.
